64 1974 C 21

CONTENTS

Vol. 79, No. 1, February 25, 1963

PAGE

Yamagata, S. Clinical Aspects of the Reticuloendothelial System 1

Mashimo, K. and **Harada, T.** Studies on the Relationship between the Infection Therapy and the Reticuloendothelial System 22

Hasegawa, M. and **Matsumoto, H.** Infection and Reticuloendothelial System — with special reference to iron metabolism — 37

Ogima, I. and **Kondo, A.** Non-specific Resistance of the Organism Against Environmental Insults; with Special Reference to the Reticuloendothelial System and Properdin System 45

Nakajima, A. and **Tanaka, H.** Evaluation of Congo Red Test for the Function of the Reticuloendothelial System 62

Kosaka, S. Studies on the Phagocytic Function of the Reticuloendothelial System 77

Watanuki, T., Nakamura, K., Namiki, T., Sato, E., Sugawara, S., Takahashi, N., Sakai, H., Fukuda, T., Watanabe, I. and **Kumagai, S.** Morphological Manifestations of Reticuloendothelial Function 85

Vol. 79, No. 2, March 25, 1963

Fukuda, T. Histological Studies of Malignant Melanoma
Characteristics of Primary Malignant Melanoma of the Leptomeninges.. 103

Nakao, T. and **Nitta, T.** Cholecystitis in Childhood 120

Maki, M. and **Saito, H.** Pathophysiology of Plasmin System
III. A Contribution to the Mechanism of Incoagulability of Menstrual and Intraperitoneal Blood 125

Ishiguro, K. Studies on Pantothenic Acid Intake
II. Pantothenic Acid Intake of Farming and Fishing Villagers 130

Tada, K., Hirono, H. and **Miyazawa, H.** Oxygen Consumption and Anaerobic Glycolysis of the Muscle from the Patients with Progressive Muscular Dystrophy..... 135

Tada, K., Wada, Y. and **Okamura, T.** A Case of Maple Sugar Urine Disease 142

Koyanagi, T. Effect of Methionine on the Blood Hypertension of Rats Induced by a High Salt Diet 148

Orosz, L. and **Hankiss, J.** Heparin and the Water Metabolism with Special Reference to the ADH 152

Oyamada, H. The Application of a Corrected Hematocrit to Triiodo-L-thyronine-I^{131} Red Blood Cell Uptake Test 158

Suwa, N., Niwa, T., Fukasawa, H. and **Sasaki, Y.** Estimation of Intravascular Blood Pressure Gradient by Mathematical Analysis of Arterial Casts 168

Miyakoshi, T. and **Kikuchi, G.** Studies on Experimental Porphyria Report I. Increased Synthesis of δ-Aminolevulinic Acid in Allylisopropylacetamide-induced Porphyria Rat 199

Vol. 79, No. 3, April 25, 1963

Kon, I. Histometrical Studies of Pulmonary Hypertension with Special Reference to Uremic Pneumonitis 209

Yamagata, S. and **Ohneda, A.** Dietary Intake in Diabetic Patients 232

Maki, M., Kikuchi, E. and **Nagasawa, K.** Pathophysiology of Plasmin System IV. Correlation of Plasma Protein Bound Polysaccharides and Plasmin System 242

Katsushima, N. Peroxidase Content per Single Myeloid Cell and in Plasma—Its Clinical Significance in Pediatrics 250

Chida, N. Lipoproteins, Cholesterol and Phospholipids in Sera of Rabbits Following Ligation of the Common Bile Duct or Injection of Carbon Tetrachloride 267

Oyamada, H. Brain Scanning with Hg^{203} Neohydrin 274

Fukuda, T. Deep Lymphatics of the Spleen 281

Nukada, A., Nagata, H. and **Ishizaki, T.** Size of Blood Pressure Cuff for Japanese Adults 293

Ishii, T. Influence of Various Inorganic Compounds in Producing Cutaneous Calcinosis after Dihydrotachysterol Pretreatment 306

Maki, T., Yoshida, K., Koizumi, A. and **Takahashi, T.** Recurrence due to Intraluminally Exfoliated Gastric Cancer Cells 309

Maki, T., Majima, S., Yoshida, K. and **Takahashi, T.** Cancer Cell Dissemination During Surgical Manipulation 319

Vol. 79, No. 4, May 25, 1963

Kurouji, K. Anti-progestational Activities of Certain Plant Preparations on the Uterine Endometrium 335

Sasabe, F. Study of Fate of Intracranial Hematoma with Radioactive Isotope Fe-59..... 342

Maki, M., Nagasawa, K. and **Sato, T.** Pathophysiology of Plasmin System V. Plasmin System and Postpartum Hemorrhage 361

Yamamoto, T. Effects upon Thalamic Somatosensory Transmission of Reticular Formation Stimulation 369

Chida, N. Paperelectrophoretic Analysis of Serum Lipoproteins of Normal Infants and Children 385

Wada, Y. Quantitative Determination of 3,4-Dihydroxymandelic Acid (Doma) in Human Urine 389

Ohara, I. and **Ito, K.** Blood Pressure Changes Following Clamping and Unclamping of the Lower Abdominal Aorta 401
